**Program**  
*Communications During An Emergency*  
*Speaker: Richard W. Miller*

The presentation will review a typical emergency communications plan for a public entity. Additionally, an overview of emergency response systems, specifically E911, will be presented – including a brief history of pre-E911, as well as a description of some of the various databases utilized with E911, and how calls are processed through the network to the emergency personnel staffing the Public Safety Answering Point (PSAP).
