<b>Reservations:</b>	<p><b>NOTE: Please identify Entrée selection when making RSVP</b></p> <p><b>Reservations are REQUIRED for this meeting. Please <b>RSVP</b> your reservation to Dr. Edit J. Kaminsky Bourgeois, <a href="mailto:ejbourge@uno.edu">ejbourge@uno.edu</a>. by Noon June 13, 2007.</b></p>	

*New Orleans Section Meeting*  
*June 15, 2007*  
*Partners' Night*

The IEEE Partner's Night speaker for this year is Dr. Russell Trahan, Dean of Engineering at UNO. He will be giving, not a technical talk about engineering, or even a discussion of UNO, but a talk about his hobby: Toy Trains. He will make a light-hearted presentation about how toy trains evolved from the early 1900's to the present, from tin trains running on house current to modern electronic whiz-bang trains with wireless controllers. This presentation is closely tied to IEEE! Russ's profession, as an electrical engineer, is due to, he claims, a Lionel train set that he received when he was about 10 years old. (He will tell the story about that old train...and he will have that train, and others, as a show and tell.) So, please join us for a relaxed (non-technical!!) evening in which you can learn about a hobby that not many people even know exists.
